

MTech Programme in M&S

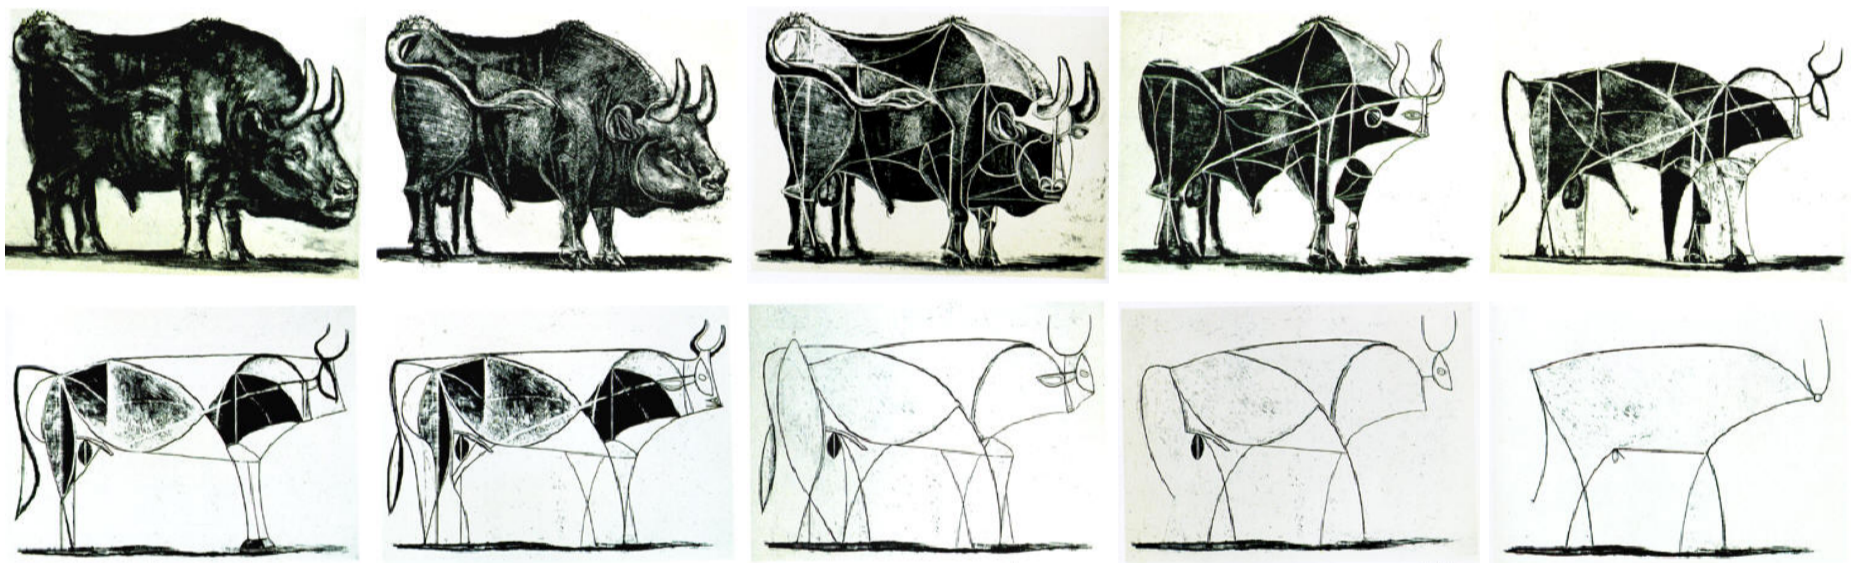

Centre for Modeling & Simulation, SPPU, Pune, India

Wish to build on your native domain expertise? Branch out into modern areas that use mathematics and computing heavily? Interested in machine learning, data science, analytics, computational finance, OR, CFD, DSP/DIP, computational engineering, etc.? Wish to pursue computational research? Is computing your passion?

What is it? A unique rigorous multidisciplinary broad-based 2-year programme in foundations of mathematical modeling, computation & simulation. Consists of core & elective courses and a full-semester internship.

Eligibility. BE/BTech in any branch of engineering, with adequate mathematics background.

Selection. Through entrance test designed to test mathematics and computing abilities, pitched at the level of GRE.

All models are false, some are useful

Entrance Test
June 10, 2017

Commencement
Mid-July
